## RoHS DECLARATION of COMPLIANCE

Dear MICROMO Customer:

The RoHS Directive Nr. 2011/65/ED of the European Union describes the restrictions on the use of certain hazardous substances in the production of electrical or electronic products.

To that end, MICROMO certifies that all components, assemblies and/or material parts utilized in the manufacture of our products meet the requirements of the DIRECTIVE 2011/65/EU, which restricts the maximum concentration values of the following hazardous substances:

Identified Hazardous Substance	Maximum Concentration*
Lead (Pb)	<0.1% (1000ppm)
Mercury (Hg)	<0.1% (1000ppm)
Cadmium (Cd)	<0.01% (100ppm)
Hexavalent Chromium [CR(VI)]	<0.1% (1000ppm)
Polybrominated Biphenyls Flame Retardants (PBB)	<0.1% (1000ppm)
Polyrominated Diphenyl Esters (PBDE)	<0.1% (1000ppm)

Further, these substances are restricted with the ratification of (EU) 2015/863.

Identified Hazardous Substance	Maximum Concentration*
Bis(2-EthylHexyl) Phthalate (DEHP)	<0.1% (1000ppm)
Butyl Benzyl Phthalate (BBP)	<0.1% (1000ppm)
Dibutyl Phthalate (DBP)	<0.1% (1000ppm)
Di-isobutyl Phthalate (DIBP)	<0.1% (1000ppm)

There are permitted exemptions from the restrictions for many applications set forth in Article 4 and Annex I of the Directive. These exemptions are listed in Annex III and IV of the Directive and the following exemptions are claimed by MicroMo for the current version of Directive 2011/65/EU:

Reference Annex	Exemption(s)
In accordance with Annex III	6a, 6b, 6c and 7c

As the Directive is routinely updated, we confirm that all of the products delivered by MICROMO are fully compliant with the RoHS Directive at the time they were manufactured.

MICROMO will inform its customers immediately in the event any modifications to the Directive has an impact on any of MICROMO's product.

Sincerely,

Mark R. Waddell  
Quality Manager

\* Maximum Concentrations calculated by homogeneous weight.
